Number 5

President's Message

Did you enjoy yourself at the seminar held in Turf Valley? I have gotten a lot of great feedback about the caliber of speakers and wide variety of seminars that our members could choose to attend. According to the registration committee we had the highest turn out ever and we have a waiting list of vendors itching to rent booth space but we just don't have any more exhibit square footage for any more booths! Currently a council committee is looking for a new venue but we have definitely outgrown Ellicott City.

Not only was the educational and product promotion element of the seminar successful but the Wednesday night banquet was a smashing success. And I do mean smashing. Our scheduled entertainment was bathtub races. Literally we raced around a track in motorized bathtubs to the thrill and cheers of the crowd. Since our members are quite competitive there were quite a few collisions (mostly from me....sorry Jim). The unscheduled entertainment was our very own Program Chair, Major Larry Shelton of WRAIR. He showed us some moves that dazzled at times and plain made our jaws drop at the rest of the time. He was such a "showman" that all other dancing stopped. Someone from the crowd suggested that he should charge for the opportunity to have someone dance with him and since MAJ Shelton is a New Orleans native it was decided all proceeds would go to the Katrina Hurricane relief effort. By the end of the evening he had raised \$120, albeit some of the money was donated by a few nervous attendees so they wouldn't have to dance.

I would like to thank Seminar Co-chairs, Dr. Mike Flynn and Jim Cox for assembling a great team that put on a stupendous event and special thanks to Sharon for the great 60's bash that Wednesday night. These three and their team worked hard for months to be able to give the membership a wonderful educational opportunity. Thank you again.

Have you bought banquet tickets yet? Don't forget the year end shindig at the Blair Mansion Mystery Theater for our year end banquet. Sign up form is in the newsletter and on the web site. We have room to seat 140 people. Tickets are available but act soon.

Work hard and have fun.

Lisa Secret

Do you have the sleuthing skills of Sherlock Holmes?

Are you as good as a CSI at picking up clues?

Then come join us at the Blair Mansion for the NCAB End of the Year Banquet and Murder Mystery Party!

Friday, November 18, 2005

Social Hour begins at 6:00

Dinner is served at 6:30 and the show begins at

NCAB
ALAT/LAT Review

WEDNESDAYS

February 1 – May 17, 2006

1:30 – 3:30 p.m.

**Uniformed Services University of the Health Sciences
(USUHS)**

4301 Jones Bridge Road

Bethesda, MD

Sandford Auditorium

www.ncabaalas.org

ALAT/LAT Review Scheduled

The NCAB ALAT/LAT Review Course has been scheduled to start February 1, 2006. This training class will be held at the Uniformed Services University of the Health Sciences (USUHS) on the Bethesda Naval campus. We have enough slots to accommodate many students in the biomedical field throughout the Washington Metro area to get the opportunity to attend this 16-week course to study for their upcoming AALAS certification exams. The manuals will be broken down into common training modules and a different lecturer will teach a block of instruction each week. At the end of the class students with a passing score will receive a Certificate of Achievement and all others who participate will obtain a Certificate of Attendance.

This coming year the entire course has been revamped. Note the extended time allotted per class. The time change permits us to shorten lecture periods which will allow for more interactive AALAS training games which will be placed at the beginning of each training session. These are important for not only the educational aspects the games bring to the class but the camaraderie it will create among the students and of course points that teams collect are part of the grading process. We hope to make this course more dynamic, interesting and above all fun, using all three adult learning styles to get the material across to the student in an interesting and meaningful way.

Facilitators SFC Ted Plemons from USUHS and Lisa Secret from Priority One Services will again collaborate to hold the 4th annual review course for NCAB this February. The course will run from **February 1 through May 17, 2006** and will again be held at the **USUHS** campus on **Wednesdays, 1:30 –3:30 p.m.** We encourage any employee that needs to take the ALAT or LAT exam to participate in this educational opportunity. Please notify your supervisors if you are interested in attending this training as soon as possible so the proper paperwork can be put into motion. The registration period is open until **January 24, 2006**. If any Veterinarian, Trainer or LATG certified member would like to volunteer to help with the course in any capacity please contact Lisa Secret at lisa@priorityoneservices.com to notify us of your interest.

Pencil/Paper certification exams for **ALAT, LAT, LATG** and **CMAR** will be held at USUHS on **May 24, 2006**. You do not need to be part of the class to be able to sit for the national exams but it is highly encouraged that if taking the course and in the testing window that you do take the opportunity to sit for the test immediately after the class. Test applications for the certification exam need to be to the Memphis National AALAS office no later than **12 April, 2006** to be eligible to take the pencil/paper test at the end of this course.

Did You Know...

A group of toads is called a knot and a group of porcupine is called a prickle?

Killer whales are not really whales but a member of the dolphin family?

The elephant is the only animal with four knees?

Well, Now You Do!

AALAS' new web site has been given a face-lift

New features on the new AALAS site (www.aalas.org) include:

* "**Product Classifieds**" was created to give vendors an outlet other than CompMed to post product classifieds (e.g., used cages).

The cost is \$60 for members and \$95 for nonmembers. Ads can be placed and paid for online and will run for 45 days. AALAS will promote this new feature in its publications to increase awareness to AALAS' 11,500+ members.

* **Site content** has been organized to help you locate information quickly. The site search has been expanded to organize your search results for you. If you're looking for something very specific, filter your search using the advanced search page.

* You can now **access your membership listing online** and make changes to your contact information. If you've forgotten your password, just verify your e-mail address and you will receive your login information by e-mail. Once you are logged in, you can change your username and password.

* The **AALAS Bookstore** is now more organized and simpler to navigate. Go straight to the item you want using the product code search, or use the keyword search to find all related items. For AALAS members to receive the discounted member pricing, you must log in with your username and password. For those purchasing items on behalf of a member, please note that to receive the member pricing, you must log in as the member. The member will then receive email notification that the order has been placed and will receive the receipt and shipment.

* **CareerLine** also has a new look. You can now search job postings by company, location, and keywords.

* The new site features a more **robust article search**, plus open access to journal articles after 6 months. You can search by issue and volume, keyword, author, and title.

It is recommended that you change your username and password to something more memorable. Once you log in, you can use the "Change User ID" and "Change Password" links in the Member Center (found at the top right of your screen) to personalize your login.

If you have any questions or comments about the new site, please e-mail webmaster@aalas.org.

NCAB Members Giving to the Greater Good

On Saturday October 1st, the Susan B. Komen Maryland 2005 Race for the Cure was held in Baltimore. Doreen Bartlett, Kelly Cole, Donna Goldstein and Daniel Hay, Donna's son (with Running for Rhonda team members), and Eileen and Michael Morgan joined forces to walk and support both The Komen Foundation and

Donna Goldstein, who lost her sister to breast cancer last year. It was a beautiful fall morning in Baltimore, the sun was shining and the temperature was cool and comfortable for a morning stroll. The team walked steadily completing the 5K walk in 49 minutes despite colliding with the orange cones, which we took turns doing when distracted by the sights of the city, so no one would feel left out! It was a generally festive atmosphere, with live music, food and fun at the race finish in the M&T Stadium Lot. This year's participation in the race set a record for numbers and for fundraising, drawing more than 20,000 participants and raising more than \$1 million. The donations finance education and research efforts to find a cure and promote early detection of breast cancer. According to the state statistics more than 4,000 women in Maryland will be diagnosed with breast cancer this year.

Mark your calendar for the 1st Saturday in October and plan to join us in 2006. Baltimore was bustling with events this weekend. Besides the Race, there was the Taste of Baltimore and the Fells Point Festival, so there's great fun to be had in Baltimore

“By furthering my knowledge and sharing skills and ideas, I feel I can better promote good animal welfare and practices. This award will provide an excellent opportunity to do so.”

—Cathy Godfrey, FIAT, RAnTech, U.K. recipient, AAALAC International Technician Fellowship Award

AAALAC's new Technician Fellowship Award

AAALAC International has launched a new awards program, the “AAALAC International Technician Fellowship.” The program is made possible through a grant by Priority One Services, Inc. (POS) and in cooperation with the American Association for Laboratory Animal Science (AALAS), the Institute of Animal Technology (IAT), the Medical Research Council (MRC), the National Centre for the Replacement, Refinement and Reduction of Animals in Research (NC3Rs), and the National Institutes of Health (NIH).

The Fellowship recognizes two outstanding technicians—one IAT Registered (RAnTech)

technician and one AALAS certified (ALAT, LAT, LATG, or CMAR) technician—who have made (or have the potential to make) significant contributions to the field of laboratory animal care.

As part of the Fellowship, the IAT Registered recipient will participate in a week-long educational internship at an animal care and use program within

a U.S. institution, then attend the National AALAS meeting. The AALAS certified recipient will participate in a week-long educational internship at an animal care and use program within an institution in the United Kingdom or the Republic of Ireland, then attend the IAT meeting. Both recipients will write an article about their experiences for AAALAC International's *Connection* newsletter.

U.K. award recipient named

Cathy Godfrey, FIAT, RAnTech, is the first U.K. recipient of the AAALAC International Technician Fellowship Award. Cathy is Technical Manager of the Biomedical Services Unit at the University of Sheffield, one of the U.K.'s leading universities. In this position she's responsible for 14 technical staff, training, and ensuring that her department meets the highest possible standards and budgetary targets.

Cathy has 33 years experience working in biomedical research programs involving all of the common species of laboratory animals. In addition to her professional duties, Cathy is an active member of the Institute of Animal Technology (IAT) and has served on its Council for more than 20 years.

As the very first U.K. recipient of the award, Cathy hopes to “exchange ideas with others, including training and development techniques, to compare the different systems employed in the U.S. and U.K.”

Cathy Godfrey, FIAT, RAnTech

AAALAC International

Institutional Membership Program

The Institutional Membership Program was started in 1978 as an important resource of support providing the NCAB with the opportunity to continually expand its educational programs. In addition to a number of Technician Scholarship awards given each year, the enthusiasm generated through our Workshop Programs have allowed us to increase the number of workshops, as well as expand the content. In 2005, our educational programs will be offered to an ever increasing audience of laboratory animal scientists, as well as other interested groups as to the benefits of biomedical research and the commitment that all members of AALAS have to humane animal care and use. NCAB/AALAS would like to thank all of the Research Institutions and Companies who make up the Institutional membership.

For Institutional membership information for 2005, please contact:

Positions Available

Priority One Services

Priority One Services is dedicated to the advancement of the Life Sciences by providing highly trained experienced laboratory animal professionals supporting the missions of the federal government, academic, and commercial communities. Our team of board-certified veterinarians, Ph.Ds, LAT and LATG certified staff, specialized trainers, and safety engineers, ensure the highest levels of technical expertise in the consistent application of our client's policies, procedures, and guidelines.

ASSISTANT PROJECT MANAGER (Laurel, MD) Candidate must have at a minimum a HS diploma and be certified as a Laboratory Animal Technologist (LATG) through the American Association for Laboratory Animal Science (AALAS). Candidate must have at least 2 years of training and experience in supervising and managing a full service animal facility, knowledge of animal technician duties and training, and knowledge of Federal regulations governing animal husbandry requirements. JOB ID: APM-FDAMOD1 .

ICD ANIMAL HEALTH TECHNICIAN II (Bethesda, MD) Will be working for the NIMH at buildings 10, 35 and 49. Shall be certified at the LATG level or have LVT or 91T or degrees in veterinary medicine/science will be considered, however will be required to obtain a LATG certification within 2 - 4 years. Experience must include four years experience in laboratory animal facilities. Should have a working knowledge of veterinary science and technology (e.g. first aid response, pharmacy and pharmacology, treatment and examination), and a wide variety of laboratory animal species. Technical experience and competency in surgical preparation and assisting, anesthesiology, nursing, laboratory procedures and radiology is expected. Formal education shall include a minimum of a high school diploma or GED equivalent with a working knowledge of computers and associated software. Must possess a valid United States driver's license. JOB ID: ICD-NIMH

VETERINARY TECHNOLOGIST I (Poolesville, MD) Shall be certified at the LAT level or be able to obtain certification within 1 year. Must have two years experience in a laboratory animal facility working with non-human primates. Responsibilities include animal husbandry, observation, record keeping, and technical support. Formal education shall include a minimum of a high school diploma or GED equivalent with a working knowledge of computers and associated software. Must possess a valid United States driver's license. JOB ID: VT-POOLES

FACILITY SUPPORT SPECIALIST (Poolesville, MD) Shall be certified at the ALAT level or be able to obtain certification within 1 year. Must have one year experience in a laboratory animal facility working with non-human primates. Formal education shall include a minimum of a high school diploma or GED equivalent with a working knowledge of computers and associated software. Must possess a valid United States driver's license. JOB ID: FSS-POOLES

LABORATORY ANIMAL TECHNICIAN (Madison, Wisconsin) Candidate must have at a minimum a HS diploma/GED required, be certified as a Laboratory Animal Technician (LAT) and/or eligible for certification within 1 year of placement. Must have experience working in a Lab Animal facility and with primates. Job duties include being responsible for the overall maintenance of a large colony or group of animals of many species. JOB ID: LAT-WISC

Positions Available cont.

Priority One Services cont.

ANIMAL CARE TECHNICIAN (Bethesda, MD) Candidates must have a high school diploma or GED. Should have experience in a laboratory animal facility. AALAS certification must be at level required for the position or eligible to test within one year. Candidates should be able to perform routine animal husbandry and care with minimal supervision. JOB ID: AC-6BCAGEWASH ATTENDANT (Baltimore, MD) Candidates must have a high school diploma or GED. Knowledge and skill working with machinery and experience in a laboratory animal facility is preferred. AALAS certification must be at a level required for the position. Job ID: CW-NIA

Any candidate applying to an animal related position must have the ability to work with and around animals, and/or the ability to control any animal or latex related allergies with medication. If medication is needed, POS will require a physician's note indicating that you are able to perform essential job functions, which include working with and around animals safely. The ability to lift 50 pounds and the disclosure of household pets may be required for certain positions. All candidates must have the ability to read, speak, and understand English.

Priority One offers a very competitive salary and full benefits package, including health, dental, life, and a 401(k) retirement plan. All candidates should mail, email, or fax cover letters and resumes to:
